# Welcome

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives. Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges. Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide. We bring in eminent speakers with world-class expertise from various countries to enlighten our researchers and spark enthusiasm for research through our best conferences. These events provide a platform for effective collaborations on the latest research for the worldwide community. Our conferences include exceptional keynote speeches, interactive sessions, and lively debates on research and development in Medicine, Engineering, and Technology. ([click here for more](#))

## About Webinar

The **2<sup>nd</sup> International Webinar on Diabetes and Endocrine Disorders**, taking place online on **November 27–28, 2026**, via the ZOOM platform (**GMT+7**), offers a dynamic global forum dedicated to advancing diabetes and endocrine science. Guided by the theme “**Innovations from Research to Real-World Diabetes Care**,” the webinar highlights the journey of scientific discoveries from laboratories to clinical practice.

It brings together an international network of clinicians, researchers, academicians, and industry professionals to exchange insights, address emerging challenges, and showcase innovative technologies that are redefining patient-centered care in diabetes and endocrinology.
